

LABOURER
INFLITE ENGINEERING SERVICES
BISHOPS STORTFORD

Inflite Engineering has a great opportunity for an energetic Maintenance Person based in Bishops Stortford.

About Inflite Engineering Services Ltd

Inflite Engineering Services Ltd is the UK's largest "one stop shop" for engineering and manufacturing services. We offer a collaborative working environment and aim to deliver our extensive capabilities right first time, on time, every time.

Purpose of the role:

The purpose of this role is to provide support to operations across two adjacent sites enabling smooth uninterrupted flow of product and services to our clients. The successful candidate will have a bias for action and get to work in different areas of the business with responsibilities for maintenance of plant and infrastructure.

Responsibilities:

- Comply to Health and Safety policies at all times
- Maintain working areas, plant and infrastructure to the highest standards across two adjacent facilities.
- Collecting, sorting and recycling of waste machines and working areas
- Organisation of materials and pallets around across both sites
- Cleaning and general maintenance of machines (training will be given)
- Transportation of jigs and fixtures to and from storage
- Load tools and fixtures on to presses and other machinery
- Participate in continuous improvement teams
- Perform other duties within the candidates capabilities as directed by the Company

Skills and Experience:

- Good awareness of Health and Safety in an engineering and manufacturing environment
- Hold a fork truck licence (Essential)
- Strong team working skills
- Ability to work using own initiative
- Ability to work to a schedule and report progress verbally
- Available to work overtime (including weekends) when required
