

Inflite Engineering have an exciting opportunity for an **Inspector** to join their team based in Stansted, Essex.

Job Title: **Inspector**

Location: Stansted, Essex

Salary: Dependent Upon Experience

Inflite Engineering Services Ltd are one of the UK's larger and most accomplished manufacturers of machined and fabricated detailed parts from most types of metals, hard and soft.

Your main duty will be to carry out First Off's and Final Inspection of the components being manufactured.

Inspector - Main Responsibilities:

- Ensuring compliance with inspection procedures
- Producing inspection reports and FAIRs
- Keeping relevant records up-to-date
- Liaising with relevant internal/external customers
- Continually seeking to improve inspection activities
- Ensuring the cleanliness, neatness and orderliness of his/her area of responsibility
- Undertaking special tasks as directed by the senior management
- Performing any other duties within capabilities as directed by the company
- Use of CMM with Virtual Dmis software and working to 3D models
- Measuring of components with various hand tools (vernier, micrometer etc.)

Inspector - Skills and Experience Required:

- Previous technical experience in an aerospace manufacturing environment
- Ability to work to detailed Drawings.
- Previous experience in a similar role
- Knowledge of problem solving techniques
- Use of PC and related programmes
- Strong communication skills
- Results focus
