Job Title: B2 Licensed Avionics Supervisor

Department: Engineering

Shift Pattern: 5, 5, 4, 5, 5, 4

Reports To: Head of Maintenance

Location: Stansted

Job Purpose:

The **B2 Licensed Avionics Supervisor** is responsible for overseeing and managing the day-to-day aircraft maintenance activities. This role includes ensuring the certification of all maintenance tasks is conducted in accordance with the current certification privileges. The role requires adherence to the highest safety, quality, and regulatory standards, with a strong emphasis on customer satisfaction.

Accountability:

- Ensure the timely completion of all scheduled and non-scheduled maintenance events for aircraft under ITJC Part 145 control.
 - Supervision of the avionics team and battery bay activities.
 - Maintain safety and quality standards for Base, Line, and AOG maintenance events.
 - Represent the company in communications with aircraft owners and customer representatives to ensure customer satisfaction.
-

Main Responsibilities and Duties:

- **Team Management:** Lead and manage a team of avionics engineers for Base maintenance inputs/projects. Perform appraisals and handle line management responsibilities.
 - **Technical Support:** Provide technical expertise and support to Engineering and Estimating teams, particularly in relation to SB and Modification assessments.
 - **C5 Approval and Battery Bay:** Ensure effective management of C5 approval and efficient operation of the Battery Bay.
 - **Project Coordination:** Communicate daily progress reports and coordinate with hangar management on project status, manpower requirements, and critical path management.
 - **Resource Management:** Work with support services for spare parts procurement, repair, and technical information; authorise repair requests and manage high-cost spares.
 - **Regulatory Compliance:** Ensure compliance with all relevant company and Health & Safety procedures. Oversee quality control of work cards for timely final release to service.
 - **Customer Liaison:** Maintain communication with customer representatives and respond to their requests during check inputs.
 - **Continuous Improvement:** Seek and implement operational improvements to maximise productivity and reduce costs.
 - **General Duties:** Perform additional tasks as directed by the Head of Maintenance or Accountable Manager.
-

Authorities:

- Authority over the staff within the area of responsibility.
 - Ability to request assistance from the Head of Maintenance and other departments.
 - Propose improvements in processes, training, and tools.
-
