Inflite MRO Services

Job Title: Hydraulics Technician

Location: Southend-on-Sea

Working Hours: 40 hours per week, 0800 hours to 1630 hours, Monday to Friday

Reports To: Workshop Supervisor

Why Join Inflite?

Inflite MRO Services Ltd, a valued member of the esteemed Inflite Group since 1983, stands as a leading European MRO component support provider. Our commitment to excellence extends beyond our work; it encompasses the well-being and career growth of our team members. Here's why Inflite is the place to be:

Job Purpose:

To work in the Hydraulic workshop carrying out testing and repair and overhaul of various hydraulic aviation components in line with quality and safety requirements.

Main Responsibilities and Duties:

- **Test, Repair, and Overhaul:** Conduct thorough testing, repairs, and overhauls of various hydraulic aviation components according to original manufacturer manuals and instructions.
 - **Quality Assurance:** Ensure all quality standards and procedures are strictly observed and maintained.
 - **Safety and Compliance:** Establish and maintain a legally compliant and safe working environment.
 - **Reporting:** Prepare detailed workshop reports and material reviews to support accurate customer estimates for the purchasing and commercial departments.
 - **Innovation:** Aid in developing new capabilities and researching improved methods to save costs and reduce turn-time.
 - **Risk Assessment:** Undertake comprehensive risk assessments and ensure all safety requirements are met.
 - **Customer Focus:** Understand and exceed customer needs and expectations at all times.
 - **Additional Duties:** Perform any other duties within your capabilities as directed by the company.
-

Skills and Experience Required:

- **Regulatory Knowledge:** Understanding of EASA Pt 145 regulatory requirements for the maintenance, repair, and overhaul of aircraft components.
 - **Hydraulic Aviation Experience:** Essential background in a hydraulic aviation environment, with a preference for previous experience in a similar role.
 - **Technical Proficiency:** Experience using both Skydrol and hydraulic oil rigs.
 - **Software Skills:** Good understanding of MS Office and business systems and procedures.
 - **Analytical Skills:** Ability to interpret manuals and accurately record inspection findings.
 - **Organisational Skills:** Excellent planning and organisational abilities.
 - **Team Player:** Strong written and oral communication skills, with a collaborative approach.
 - **Safety Conscious:** Must be highly safety-conscious with a keen attention to detail.
 - **Must have your own tools**
-
